[HR of Hooli Software]
Human Resources Manager
Hooli Software

30 Berb Bldg.
McArthur Hwy,
Marilao, 3019 Bulacan

Dear [HR of Hooli Software],

I am writing this letter to express my strong interest in an internship program at your company, Hooli Software. As I was scrolling through the list of IT companies associated with our school, your company stood out the most because of its dedication to nurturing a culture of collaboration and inclusivity in the workplace.

As seen in my resume, I am equipped with skills like teamwork, WordPress, HTML & CSS, and UI Design that I can contribute to the company. I believe I have the skills necessary to excel in this role. I am willing to learn new skills and develop the skills that I already have, which are much needed for my career, and to meet new people who share the same passion for the industry, creating an environment of collaboration where we can learn from one another's experiences and grow together.

Throughout my academic career, I have encountered numerous challenges that have played a crucial role in shaping my skills, particularly in the creation of responsive websites, while also maintaining consistently high grades. These challenges have not only shaped my skills but also led me to have a work ethic mindset that I can contribute to your company.

I am excited about the opportunity to bring my skills to Hooli Software and contribute to the success of the team. Thank you for considering my application. I look forward to the opportunity to speak with you further. Thank you for your time and consideration.

Sincerely,

Aaron Punzalan
